work experience

- 2002 – Present **Senior Designer**, Gotomedia
Create sitemaps, wireframes, path flows, and prototypes based on client requirements
Create elegant visual designs for websites and interfaces that support and enhance client's brand identity
Build websites using standards compliant CSS and XHTML
Manage projects to enable smooth client communication and ensure that deadlines are met for all deliverables
Evaluate website usability and incorporate feedback from usability testing to improve website performance
Write competitive reviews, heuristic evaluations, and usability reports to help clients strategize future website development work
- 2000 - 2001 **Information Designer**, Idea Integration
Designed the information structure, navigation, and interfaces of websites
Built websites using HTML, CSS and Javascript
Aided clients to fully understand the user's needs, objectives, and working methods
Evaluated the success of designs through workflow diagrams, user scenarios, and usability testing.
- 1999 - 2000 **Production Engineer**, Red Eye Digital Media
Built front-end systems utilizing HTML, Javascript, Flash and DHTML
Ensured cross-browser compatibility while keeping the design intact from comp to browser
Generated and incorporated Flash movies, streaming video, and audio clips into web pages
